

# **NABP/AACP District IV Grant**

Ryan S. Ades, PharmD, BCPS  
District IV Grant Administrator  
[rades@purdue.edu](mailto:rades@purdue.edu)  
765-494-5442

# Brief Overview

- **Who:** Pharmacy student organizations at District IV Colleges of Pharmacy.
  - **What:** Up to \$3,000 of grant money to fund community-based projects demonstrating a collaborative effort between student organizations and community partners, with an aim to advance public health.
  - **When:** The application window is open from now through November 14<sup>th</sup>, 2024 at 6 p.m. EST, with the awardee announced November 27<sup>th</sup>. That awardee agrees to present the results of their project.
  - **Where:** At the following NABP District IV Meeting.
  - **Why:** To facilitate community engagement and wellness within District IV, and to provide pharmacy students with experience in applying for and managing a grant funded program.
- 

# 2024/2025 Focus: Preventive Care

- Preventive care significantly reduces the development of chronic conditions like diabetes, heart disease, and cancer, leading to longer, healthier lives for patients. Despite this, millions of people in the U.S. don't receive preventive care services regularly.
- Many metrics targeted by Healthy People 2030 are either not improving or getting worse. These include cancer screenings, heart disease and stroke prevention, and adequate prenatal care.
- Pharmacists are accessible and trained to provide many of these services, including immunizations, health screenings, CLIA-waived testing, pharmacy care services, and in some cases prescribing medications.

If everyone in the US  
received recommended  
**CLINICAL PREVENTIVE  
CARE** we could save over  
**100,000**  
lives each year.
